ABOUT GREG MILLER

[READ MORE](#)

As a professional photographer for more than 40 years, Greg Miller has amassed a portfolio of famous faces, incredible places and compelling images.

Greg has developed an uncanny ability to perfectly capture the personality of an individual in a photograph as well as communicate the spirit of a structure or the essence of a client's project.

Greg's experience in dozens of industries gives him the edge in the market. Sizing up a job quickly, he's able to calculate the lighting parameters, determine the composition and frame the shot, all while responding to the client's goals for the shoot. Greg's simple philosophy and commitment to client individuality have paid off.

As the photography industry has evolved, so has Greg's technical expertise. He offers state of the art digital capability allowing for a range of creative shots and immediate client review.

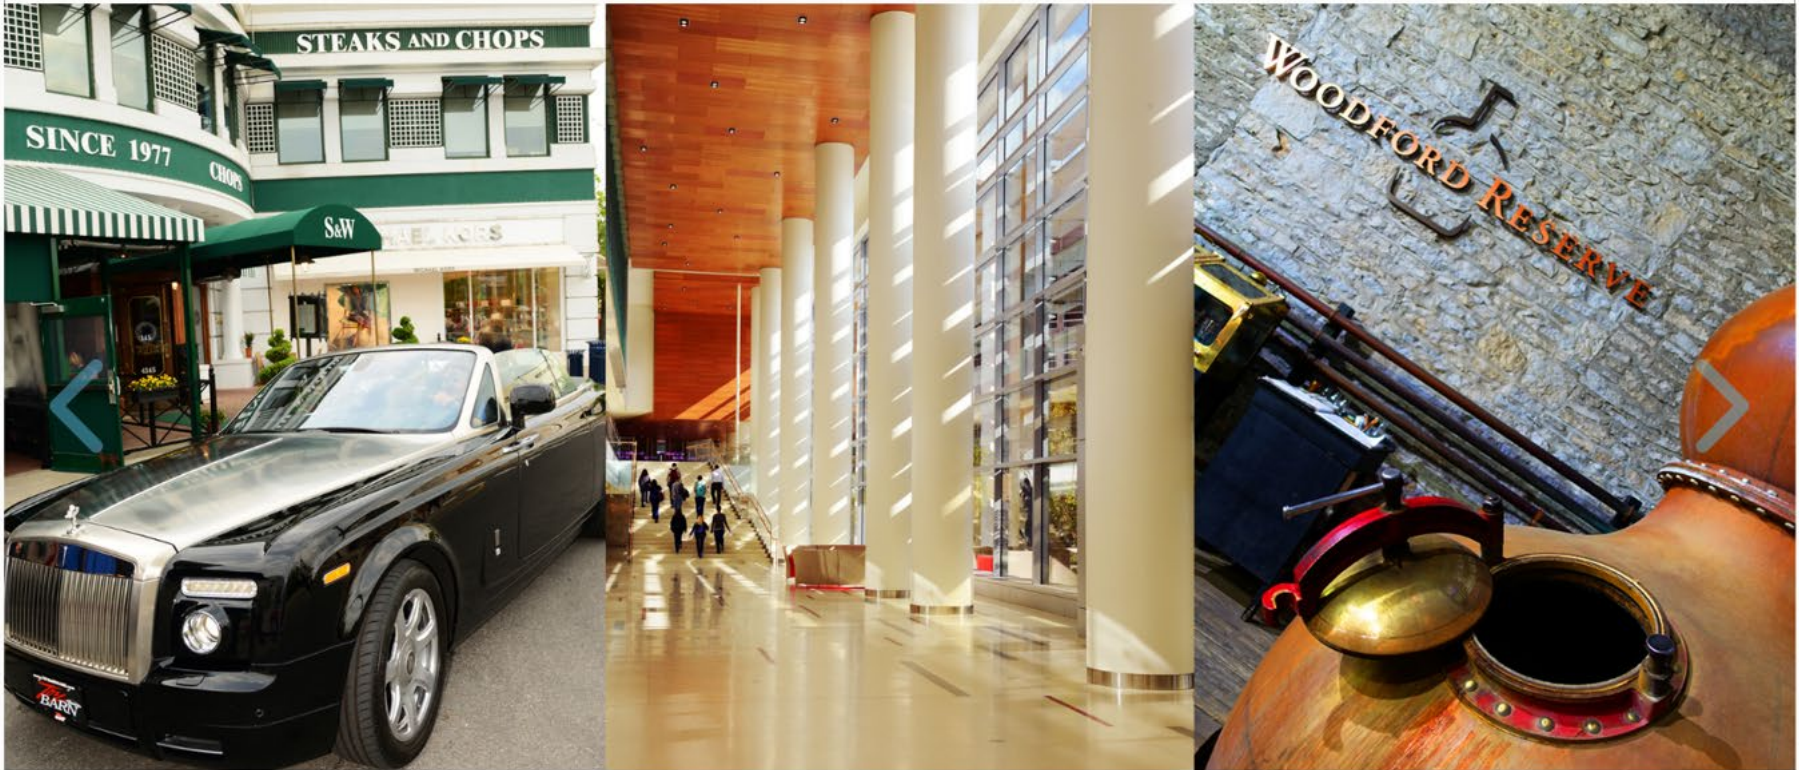

PEOPLE

Greg Miller has extensive experience with large and small groups of people in business and casual settings. He captures the essence of people in business environments, senior photos and personal portraiture.

PLACES

Greg Miller photographs interior and exterior spaces and places including: architecture, historic buildings and homes, businesses, corporate offices and scenic natural locations.

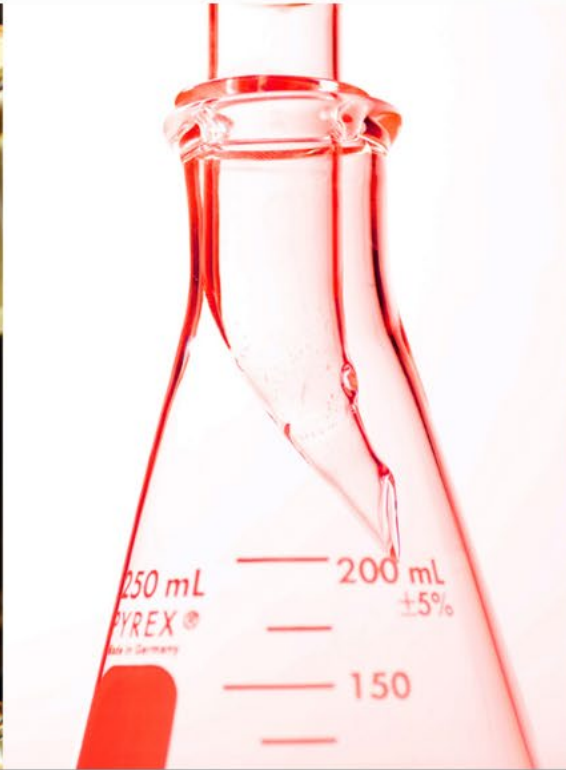

EVENTS

Capture the special moments at your business, corporate, organization or club event. Greg Miller's photography experience allows him to step into a corporate event or social gathering and come away with photographs that provide vivid memories and a record of the experience.

MISC

With a trained eye for light, perspective, line and color, Greg Miller's photography shows the best side of the products, food, equipment or services his clients provide to customers.

VELOCITY

Greg Miller's passion for photography began as he traveled through California, Canada and New York photographing Formula One race cars and it's grown since then. He shoots a variety of auto art including: vintage cars, race cars, luxury automobiles and motorcycles too.
